*structural reforms. We remove obstacles and impediments. We reduce weaknesses and uncertainties. Great opportunities emerge. Competitive advantages exist. The geopolitical position is important. Thus, we invite you to invest in Greece”.*

The **Chairman of the Hellenic Capital Market Commission, Dr Vassiliki Lazarakou** pointed out that the mission of the HCMC is to ensure transparency and compliance in alignment with the EU legislation and at the same time to have a financial Greece fit for tomorrow’s challenges and strong on the European and international scene.

*“The priorities set currently are enhancement of prudential supervision, leverage of new technologies and putting forward proposals for facilitating financing through the capital markets, adjusting existing legislation such as corporate governance, consolidating EU initiatives for sustainable finance and digital services and supporting an environment which will be friendly for innovation and Fintech”.*

**Mr George Handjinicolaou, Chairman of the Athens Exchange Group** remarked: *“For the first time in many years, in meetings with international investors, there is a clear sense of optimism about the future of the Greek economy and the country’s investment prospects. In this context, the Greek financial industry is recovering steadily and is ready to finance the growth of the domestic economy. The same is true with the Greek capital markets, with the Athens Stock Exchange at the center. The Stock Exchange has the ability to support listed companies in raising the funds required for their development. This new dynamic is expected to create attractive investment opportunities for both Greeks and foreign investors”.*

The **CEO of the Athens Exchange Group, Mr. Socrates Lazaridis** noted: *“The 14th Annual Roadshow organized by the Stock Exchange comes to a successful close today. In terms of investor presence, this year’s participation came close to that of 2013, a year which was marked with significant capital raising. Additionally, the feedback received from our discussions with participants is that foreign investors’ attention is now focused on the medium-term prospects of Greek listed companies; a fact which confirms the recognition of the positive dynamic which the Greek economy is developing”.*

The Roadshow had the support of **(8) Gold Sponsors** and specifically Greek investment firms **Alpha Finance, BETA Securities, Eurobank Equities, Investment Bank of Greece, NBG Securities, PANTELAKIS Securities, Piraeus Securities** and the international investment bank **Morgan Stanley**.
